

# BUCKLEY TECHNOLOGY GROUP

*We prepare and protect your organization.*

**Our mission is to be your organization's trusted compliance partner.**

Since its inception in 1999, Buckley Technology Group (BTG) has been a leading provider of financial industry solutions - offering superior consulting, implementation, and support services to both regional and national organizations. BTG is dedicated to serving organizations with the expertise, product and services required to protect information assets, secure technology systems, and effectively manage compliance.

## ISSAC ONLINE Cybersecurity

### *Maintain your Cybersecurity Program with BTG...*

The ISSAC ONLINE Audit/Risk module offers a comprehensive solution for the management of your organization's Cybersecurity Program in alignment with the FFIEC Cybersecurity Assessment Tool. BTG provides the best solution to perform Cybersecurity Risk Assessments, and efficiently maintain audit tracking to remediate any findings.

Explore some of the many ISSAC ONLINE Audit/Risk benefits:

- Maintain, respond to, and track results of Cybersecurity Risk Assessments
- Track Cyber Incidents and the organization's response handling process
- Upload and retain Cybersecurity Policies in the secured Document Library
- Provide management and regulators with clear concise reports
- Set multiple email alert reminders for review and completion of Cybersecurity Risk Assessments

## Professional and Consulting Services

### *BTG offers a unique and customizable Cybersecurity maintenance program...*

Our professional and consulting services are offered on a project basis or within an annual maintenance program. Organizations can select services needed to create their own unique maintenance program ensuring continued compliance with regulatory requirements. Benefits of a maintenance program:

- All professional services are available for selection
- Organizations are able to budget more efficiently
- Discounted pricing is offered for services selected

- ✓ Cybersecurity Program and Policy Development
- ✓ Cybersecurity Risk Assessment (in alignment with the FFIEC Cybersecurity Assessment Tool)
- ✓ Cybersecurity Board and Employee Training
- ✓ Incident Response/Cyber Resilience Tabletop Testing
- ✓ Electronic Social Engineering Testing
- ✓ Penetration Testing
- ✓ External Vulnerability Assessments
