Top Ten Reasons Why ISSAC Compliance Software?

- 1 Eliminates duplication and high costs of multiple software products**
ISSAC is a multi-user, comprehensive hosted software for Vendor Management, Disaster Recovery, GLBA, Information Security, Risk Assessment and more in ONE fully integrated solution.
- 2 Eliminates high costs with data migration**
Data is migrated at NO charge.
- 3 Features flexibility with regulatory approved assessment questions**
ISSAC provides a series of template questions BUT allows for customization of risk assessments to suit the needs of the institution.
- 4 Looking for a product that both your technical and non-technical employees can easily use?**
ISSAC allows you to create questions suitable for specific employees and products via a friendly end-user interface.
- 5 No more searching for procedures, vendor contracts, or due diligence**
ISSAC offers a document management system to organize procedures, due diligence, contracts, and features easy to retrieve reports.
- 6 Manages contract renewal dates**
ISSAC offers a contract tracking and document management system with extensive email alert functions.
- 7 Are you struggling to provide executive management or examiners the reports they require?**
ISSAC provides extensive reports including a queue for examination reports to ensure readiness for examiners.
- 8 Eliminates additional costs for software upgrades for new regulatory requirements**
ISSAC was developed to allow for regulatory changes and is easily updated without additional cost.
- 9 Need knowledgeable industry support at an affordable price?**
ISSAC licensing includes unlimited phone and email support personnel with direct industry experience.
- 10 No more searching for the Right Solution**
Buckley Technology Group offers ISSAC Software.
