

BUCKLEY TECHNOLOGY GROUP

We prepare and protect your organization.

Our mission is to be your organization's trusted compliance partner.

Since its inception in 1999, Buckley Technology Group (BTG) has been a leading provider of financial industry solutions - offering superior consulting, implementation, and support services to both regional and national organizations. BTG is dedicated to serving organizations with the expertise, product and services required to protect information assets, secure technology systems, and effectively manage compliance.

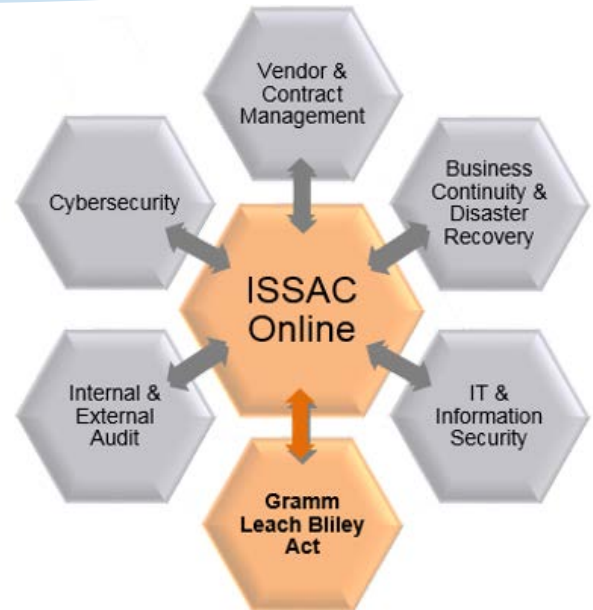

ISSAC ONLINE Gramm Leach Bliley Act

Maintain Compliance with the Gramm Leach Bliley Act using the ISSAC ONLINE Solution...

The ISSAC Online Vendor Management module offers a comprehensive solution for the management of your organization's compliance with Gramm Leach Bliley Act (GLBA) requirements. BTG provides the best solution to identify and assess how customer data is secured and controlled internally and externally by analyzing the controls in place at related vendors and third parties.

Explore some of the many ISSAC ONLINE Vendor Management benefits:

- Standardize the process and effectively risk rate customer data security related to business processes and supporting vendors
- Customize and perform GLBA Risk Assessments
- Utilize tools to track the overall GLBA compliance program
- Provide management and regulators with clear concise reports
- Set multiple email alert reminders for GLBA risk assessments and reviews

Professional and Consulting Services

BTG offers a unique and customizable GLBA maintenance program...

Our professional and consulting services are offered on a project basis or within an annual maintenance program. Organizations can select services needed to create their own unique maintenance program ensuring continued compliance with regulatory requirements. Benefits of a maintenance program:

- All professional services are available for selection
- Organizations are able to budget more efficiently
- Discounted pricing is offered for services selected

- ✓ Gramm Leach Bliley Risk Assessments
 - BTG will interview key employees to identify existing controls and gather critical information. Areas included for review include:
 - Strategic systems logical access controls
 - Physical security controls
 - Data integrity and retention policies in place at the organization and in place at related supporting vendors and third parties
 - Customer confidentiality practices including collection, access, storage, and transmission of data
 - Incident response policies and practices
